Labycare-Tuning Fork Stainless Steel (SKSS-DP0098)

Tuning Fork Stainless Steel

Description :

Labycare Tuning Fork Stainless Steel is also known as Medical Tuning Fork.

Tuning fork is an acoustic resonator in the form of a two-pronged fork with the prongs (tines) formed from a U-shaped bar of elastic stainless steel.

It resonates at a specific constant pitch when set vibrating by striking it against a surface or with an object, and emits a pure musical tone once the high overtones have died out.

The pitch that a particular tuning fork generates depends on the length and mass of the two prongs.

We are Manufacturer, Exporters and Suppliers of Tuning Fork Stainless Steel at wholesale competitive prices from India.
