

Labycare-Short Leg Splint (SKSS-RP544)

Short Leg Splint Manufacturer by LABYCARE

Description :

Short Leg Splint is used for fractures of distal tibia & fibula, tarsals, metatarsals or ankle dislocations.

Short Leg Splint can be used as temporary or post-operative support.

Supports and immobilizes the affected part.

Short Leg Splint is made of pre-molded well padded malleable aluminium splint.

Common for left & right Leg.

We are Exporters and Suppliers of Short Leg Splint at wholesale competitive prices from India.
