

Labycare-Bacterial Filter Reusable (SKSS-SM50)

Bacterial Filter Reusable Manufacturer by LABYCARE

Description :

Bacterial Filters are Reusable

Bacterial Filters are made from superior medical grade raw materials and are used to prevent bacteria from the secretions suctioned from escaping the collection bottle.

These filters should be replaced every two months or so depending on the amount of use the machine has or any time the collection bottle overflows.

We are Manufacturer, Exporters and Suppliers of Bacterial Filter Reusable at wholesale competitive prices from India.
