

Labycare-Cautery Machine 400 Watt Digital (SKSS-IE45)

Cautery Machine 400 Watt Digital Manufacturer by LABYCARE

Description :

Cautery Machine is also known as Electrocautery Machine and Electro Surgical unit.

Electrocautery is used in minor surgical procedures in dermatology, ophthalmology, otolaryngology, plastic surgery, and urology.

In Electrocautery procedure, heated electrode is applied to living tissue to achieve hemostasis or varying degrees of tissue destruction.

Cautery Machine 400 Watt Digital is microprocessor based Electro Surgical unit.

It combines excellent performance of monopolar (cut & coagulation) and bipolar modes.

Integrated with microprocessor controls, Electro Surgical unit provides user safety during surgery and is ideal for surgeries that require high precision and reliability.

Spray coagulation is an internal part of this surgical unit that gives a good hemostasis effect with minimum cutting effect
