

Labycare-Vertical Autoclave Double Wall (SKSS-AS016)

Vertical Autoclave Double Wall Manufacturer by LABYCARE

Description :

Vertical Autoclave Double Wall is made of Inner Stainless Steel and outer Stainless Steel

Vertical Autoclave Double Wall is electrically heated sterilizer under saturated steam of Adjustable pressure of 10 to 20 psi.

Double Wall construction gap is filled with high grade glass wool to bring the temperature to a minimal level.

The outer wall is made out of Stainless Steel.

The lid is made of thick Stainless Steel and can be sealed by a jointless neoprene rubber gasket by wing nuts through hinged bolts by engaging slotted lugs on rim of the cover.

Vertical Autoclave is fitted with dial pressure gauge, air/ steam release cock, spring loaded safety valve adjustable to any required point from 10 psi to 20 psi with accuracy + 3 psi.

Drain cock is also provided.

A double safety valve has also been provided.

Additional Features :

i) Automatic low-water level cut off- device.

ii) Pressure Control switch.

iii) Digital Temperature Controller

We are Manufacturer, Exporters and Suppliers of Vertical Autoclave Double Wall at wholesale competitive prices from India.
