

Labycare-Horizontal Autoclave High Pressure Cylindrical Deluxe
(SKSSAS026)

Horizontal Autoclave High Pressure Cylindrical Deluxe Manufacturer by LABYCARE

Description :

Product Cat # SKSSAS026

The Horizontal Autoclave High Pressure Cylindrical Deluxe model is a premium sterilization unit designed for hospitals, laboratories, and pharmaceutical industries. Built from high-grade stainless steel, it provides excellent corrosion resistance and durability. The cylindrical chamber ensures uniform steam distribution, delivering consistent sterilization for instruments, glassware, and dressings. This deluxe version features digital controls for temperature, pressure, and cycle time, ensuring precise operation with minimal manual input. Equipped with advanced safety features such as automatic pressure cut-off, safety valve, and door interlock system, this autoclave offers reliable, high-performance, and energy-efficient sterilization under high pressure.
