

Labycare-Pencil Vein Viewer (SKSS-BCE043)

Pencil Vein Viewer Manufacturer by LABYCARE

Description :

A Pencil Vein Viewer is a compact, pen-shaped device designed to assist healthcare professionals in locating veins quickly and accurately. It emits safe light to enhance vein visibility, especially in pediatric, geriatric, and difficult-access patients, reducing failed attempts and improving patient comfort.

Specifications :

Pen-shaped, lightweight, and ergonomic design

Uses LED or near-infrared illumination

Non-invasive and safe for repeated use

Enhances superficial vein visibility

Battery operated for easy portability

Suitable for pediatric and adult patients
