

Labycare-Bubble CPAP System Gold (SKSS-BCE052)

Bubble CPAP System Gold Manufacturer by LABYCARE

Description :

The Bubble CPAP System Gold is an advanced neonatal respiratory support device providing continuous positive airway pressure through bubble technology. It helps preterm and newborn infants breathe effectively by maintaining airway patency, improving oxygenation, and reducing respiratory effort with safe, non-invasive support in NICU environments.

Specifications :

Advanced bubble CPAP technology for consistent pressure

Suitable for neonates and premature infants

Adjustable CPAP pressure and oxygen flow

Compatible with heated humidification systems

Durable, medical-grade components

Designed for continuous use in NICU settings
