

Labycare-Sharp Container Square Shape Standard (SKSS-BP015)

Sharp Container Square Shape Standard Manufacturer by LABYCARE

Description :

A Sharp Container Square Shape Standard is a robust medical waste container designed to safely collect and contain used needles, syringes, and other sharps. Its square shape maximizes space efficiency and stability, ensuring safe handling, prevention of needlestick injuries, and compliant waste management in healthcare settings.

Specifications :

- Square, space-efficient design
- Made from puncture-resistant, durable plastic
- Leak-proof with secure locking lid

- Clearly labeled for sharps disposal
- Standard capacity options available
- Suitable for hospitals, clinics, and medical facilities
