

Labycare-Blood Bag Tube Sealer With Battery Backup (SKSS-BBP02)

Blood Bag Tube Sealer With Battery Backup

Description :

A Blood Bag Tube Sealer with Battery Backup is a portable device that securely seals blood bag tubing to prevent leaks and contamination during collection or processing. The built-in battery ensures uninterrupted operation in power outages, enhancing reliability in blood banks, hospitals, and emergency settings.

Specifications :

- Reliable sealing of blood bag tubing
- Battery backup for uninterrupted use
- Portable and ergonomic design
- Creates secure, leak-proof seals
- Easy to operate with minimal training
- Suitable for blood banks, hospitals, and clinics
