

Labycare-Medical Cold Chain Box 8 ltr (SKSS-CCE02)

Medical Cold Chain Box 8 ltr

Description :

A Medical Cold Chain Box 8 Ltr is a portable insulated container used to store and transport temperature-sensitive medical products such as vaccines, blood samples, and medicines. It maintains the required cold temperature range, ensuring product safety and potency during transit and temporary storage.

Specifications :

- 8-liter storage capacity
- High-quality thermal insulation for temperature retention
- Compatible with ice packs or coolant packs
- Durable, easy-to-clean outer body
- Secure lid to prevent temperature loss
- Suitable for vaccines, blood samples, and medical supplies
