

Labycare-Forceps Jar Stainless Steel 202 Grade (SKSS-HH032)

Forceps Jar Stainless Steel 202 Grade Manufacturer by LABYACRE

Description :

Forceps Jars are also known as Forceps Holder and Jar Forceps.

Forceps jar is used by doctors and surgeons to keep in the forceps during the surgical treatment. Forceps are handheld surgical instruments for grasping or holding the objects during surgical treatments. Forceps need to be sterilized and free of germs, as they have to come in to contact with human organs indirectly. They can cause cross communication of diseases as well. So it is very important to keep them clean throughout the surgical treatment. Forceps jar contains some chemicals, which keep the forceps clean and free of germs.

Forceps Jar is made of stainless steel 202 grade.

The cylindrical shape and uncovered mouth allow handles to rest where they can be easily grasped. The base has larger circumference than the rest of the container which ensures the jar stability.

We are Manufacturer, Exporters and Suppliers of Forceps Jar Stainless Steel 202 Grade at wholesale competitive prices from India.
