

Labycare-Endotracheal Tubes Plain Reinforced (SKSS-MD02)

Endotracheal Tubes Plain Reinforced Manufacturer by LABYCARE

Description :

Endotracheal Tube is also known as ET Tube.

ET Tube is used to maintain a patent airway and mechanically ventilate patients.

ET Tube is made from non-toxic, non-irritant medical grade PVC.

Endotracheal Tube has uniform spiral metal reinforced tube wall to prevent the tube from kinking.

Reinforcement supports tube position and verification during X-ray.

Accurate and safe positioning ensured by graduation marks and tip-to-tip radiopaque line.

ET Tube is fitted with universal 15 mm connector at proximal end.

Recommended use of bite block / Guedel airway.

E.T.O sterile and pyrogen free.

ET Tube is for single patient use.

We are Manufacturer, Exporters and Suppliers of Endotracheal Tube Plain Reinforced at wholesale competitive prices from India.
