

Labycare-Endotracheal Tube Subglottic Suction Line (SKSS-MD014)

Endotracheal Tube Subglottic Suction Line Manufacturer by LABYCARE

Description :

Endotracheal Tube is also known as ET Tube.

ET Tube is used to maintain a patent airway in long term mechanically ventilated patients.

Endotracheal Tube is made from a special non-toxic medical grade PVC.

Special suction port for removal of subglottic secretions using syringe/suction minimize the risk of VAP(Ventilator Associated Pneumonia).

Extra smooth, non-adherent inside/outside surface for ease in intubation, extubation and suctioning.

Kink resistant, thin-walled, thermo-sensitive tube. Softens at body temperature.

Smooth polished murphy eye and distal end for atraumatic intubation and extubation.

Radio opaque line and markings provided to facilitate identification of tube position.

ET Tube is fitted with universal 15 mm connector at proximal end.

Recommended use of bite block / Guedel airway.

E.T.O sterile and pyrogen free.

ET Tube is for single patient use.

We are Manufacturer, Exporters and Suppliers of Endotracheal Tube Subglottic Suction Line at wholesale competitive prices from India.
