

Labycare-Thermometer Forehead (SKSS-DP0093)

Thermometer Forehead _____

Description :

Labycare Thermometer Forehead is used for infants as it becomes difficult when it comes to taking their temperature. An infant's temperature may need to be taken several times in their first year due to a variety of causes such as teething fevers, illness or overheating.

Forehead thermometer makes it easy and gives an accurate temperature and makes the process painless for both the parent and infant.

Forehead Thermometer give parents an accurate temperature in about 1 seconds and have both Celsius and Fahrenheit readings.

The Forehead Thermometer should be held in place for 3–5cm for an accurate reading.

We are Manufacturer, Exporters and Suppliers of Thermometer Forehead at wholesale competitive prices from India.
