

Labycare-Steinlite Non Destructive Moisture Meter (SKSS-SNDMM2005)

Steinlite Non Destructive Moisture Meter Manufacturer by LABYCARE

Description :

A **Steinlite Non-Destructive Moisture Meter** is an advanced instrument used to measure the moisture content of grains and seeds without damaging the sample. It works on the **dielectric (capacitance) principle**, providing fast and accurate readings within seconds. Widely used in grain processing plants, laboratories, and procurement centers, it ensures reliable moisture testing for quality control and safe storage

Specifications :

Commodity calibration	Food
Range	1%
Least count	0.01
Sample Size	500
Principle of measurement	Cap
Grain Temperature	Valu
Temperature Compensation	Auto

Error Conditions	Und
Display	20 x
Weighing	Auto
COM Port	It h Tem weig
Keypad	20 k
Size (LXBXH in cm)	35.6
Weight	13 k
