

Labycare-Handy Non Destructive Moisture Meter (SKSS-HNDMM2006)

Handy Non Destructive Moisture Meter Manufacturer by LABYCARE

Description :

Handy Non-Destructive Moisture Meter is a portable device designed for quick and accurate moisture measurement without damaging the sample. Using advanced sensor technology, it provides instant readings for wood, grains, soil, and building materials. Compact and easy to operate, it is ideal for agriculture, construction, laboratories, and quality control applications.

Specifications :

Commodity calibration	Wheat, Rice, Paddy, Pearl Millet (Bajra)
Range	5% to 30%
Consistency	Typically within $\pm 0.5\%$
Principle of measurement	Capacitance Type
Error Conditions	Under Range, Over Range
Display	2 x16 character alphanumeric
Body	Rugged Plastic Body
USB/COM port	Data Transfer to PC
Bluetooth Connectivity	Data can be transferred to mobile phone
Keypad	Membrane type keypad
Weight	Less than 2 kg
