

Labycare-Moisture meter Calibrator (SKSS-MTE2010)

Moisture Meter Calibrator Manufacturer by LABYCARE

Description :

Purpose: The Moisture Meter Calibrator is designed to ensure that moisture meters are accurately calibrated according to factory settings.

Calibration Verification: Use the calibrator to verify the instrument's accuracy over different time intervals and temperature ranges.

Quick Accuracy Checks: This calibrator enables rapid checks to determine if the moisture meter is providing correct readings.

Temperature Impact: Since temperature fluctuations can affect crop moisture percentages, the calibrator includes a detailed chart.

Specifications :

Body	Metal Body
Moisture Range for Each Commodity	Low , medium , Hi

Switch	Two switches with
Data Chart	Separate data Cha
Leads	Lead with Crocodi for Calibrator side
