

Labycare-SEED/GRAIN PRECISION GAMET DIVIDER (SKSS-SLE2040)

Seed/Grain Precision Gamet Divider Manufacturer by LABYCARE

Description :

A Seed/Grain Precision Gamet Divider is a laboratory tool engineered to split bulk seed or grain samples into smaller, statistically representative portions. It ensures highly uniform subsampling for accurate quality analyses like moisture, purity, and germination testing. Ideal for agricultural labs and quality control to improve reliability and reduce testing errors.
