

Labycare-mobile seed grading plant (Bolero type) (SKSS-CMSPP2067)

mobile seed grading plant (Bolero type) Manufacturer by LABYCARE

Description :

A mobile seed grading plant (Bolero type) is a compact seed processing unit mounted on a Bolero pickup vehicle. It performs seed cleaning and grading using vibrating screens and air aspiration. The mobile design allows easy transportation to farms and procurement centers, enabling efficient on-site seed processing and bagging operations.

Specifications :	Machine Type	Mobile Seed G
	Capacity	1.5 – 3 TPH (d
	Cleaning Method	Screen grading
	Feeding System	Hopper with co
	Dust Collection	Cyclone separ
	Power Requirement	7.5 – 15 HP
	Mounting	Bolero pickup v
	Construction	Heavy duty Mi
	Crops Processed	Wheat, paddy,
