

Labycare-Z - TYPE BUCKET ELEVATOR (SKSS-PMHE2073)

Z - Type Bucket Elevator Manufacturer by LABYCARE

Description :

The Z-Type Bucket Elevator is an advanced material handling solution engineered for the smooth and efficient movement of bulk materials—such as grains, seeds, pulses, and other granular or powdered substances—both vertically and horizontally. Its distinctive Z-shaped design enables lifting, horizontal conveying, and discharge within a single, compact system, making it particularly well-suited for facilities with space constraints or intricate layout configurations.

<u>Specifications :</u>	Capacity	2-10TPH wheat basis.
	Product carrier	Swing type plastic/nylon bucket (overlap type).
	Drive unit motor	2 HP, 3 phase, 440V flanged mounted with gear box.
	Overload protection	Torque limiter.
