

Labycare-Egg incubator (SKEI336A)

Building on years of incubator design, the fully digital 28 Eco Egg Incubator incorporates system which achieves higher levels of temperature consistency for optimum hatching conditions. A quality incubator for the discerning breeder, the Ovation 28 Eco has the main features needed for a successful hatch with the convenience of automatic turning, digital control, good visibility of the eggs and handling up to goose size.

Description :

- Simple and highly accurate menu-driven digital control system gives digital display of temperature Factory-calibrated automatic temperature control in °F or °C High and low incubator and room temperature alarms Programmable automatic egg turning Fan-assisted air flow with Induced Dual Airflow system and ventilation control Humidity is provided by water trays with easy water top-up with level indicator Robust and easy-to-clean plastic cabinet incorporates Bio master anti-microbial additive to prevent growth of harmful bacteria helping to provide the optimum environment for hatching

Specifications :

Package Weight:	9 lb.
Product Weight:	9 lb.
Package Length:	20 in.
Power Type:	Electric
Product Height:	10 in.
Package Quantity:	1
Product Width:	12 in.
Package Height:	10 in.
Product Material:	mild steel c
Brand:	labycare
Package Width:	16 in.
Product Length:	17 in.
Manufacturer Part Number	SKEI336A
