

Labycare-6 Hole Water Bath (SKWB344C)

6 Holes Thermostatic Laboratory Water Bath is used to provide precise and constant temperature and auxiliary heating for gene amplification in laboratory, medical and industry.

Description :

- 6 Hole water bath for laboratory and initiatory working chamber and lid _____
_alarming_____

Specifications :	<i>Model</i>	SKSSWB344C
	<i>Chamber Volume(L)</i>	24
	<i>Temperature Control Range</i>	RT+5?~100?
	<i>Temperature Accuracy at 37?</i>	+/-0.1?
	<i>Temperature Fluctuation</i>	±0.3?
	<i>Temperature Uniformity at 37?</i>	+/-0.5?
	<i>Display</i>	LED
	<i>Temperature Controller</i>	PID microprocessor control
	<i>Temperature Sensor</i>	PT100
	<i>Timer</i>	Power-on, power off and working
	<i>Chamber Material</i>	304 stainless steel
	<i>Housing Material</i>	Steel (powder coating)
	<i>Internal</i>	2 rows and 6 holes
	<i>External Dimensions (WxDxH,mm)</i>	590x340x220
	<i>Net Weight(Kg)</i>	13
	<i>Consumption Power(W)</i>	1500
	<i>Power Supply</i>	20V/50Hz (Optional)
