

Labycare-chemistry lab table (SKSS909)

Chemistry Lab Tables. Table size : 4 feet width x 8 feet length x 3 feet high. Material used on 40 mm square pipe x 1.6 mm thick. Top Material 18 mm thick polish stone.

Description :

A chemistry lab table is a durable, chemical-resistant work surface designed for safe laboratory use. It often features an epoxy or phenolic resin top, built-in sinks, reagent racks, and sturdy storage cabinets. Ideal for schools and research labs, it supports experiments while ensuring safety, organization, and long-term performance.
