

Labycare-FRP Security Cabin (SKSS828FS)

FRP (Fiber Reinforced Plastic) security cabins are lightweight, durable, and weather-resistant structures designed for versatile use in both indoor and outdoor environments. Engineered for strength and portability, these cabins offer a secure, insulated, and comfortable workspace for applications such as guardhouses, toll booths, and ticket counters.

The cabins are constructed with premium-grade FRP panels, which are UV-resistant, fire-retardant, and built to withstand harsh climatic conditions. The interior is insulated for thermal comfort, featuring anti-skid flooring, pre-installed electrical fittings, and ample ventilation for a safe and efficient workspace.

Description :

FRP (Fiber Reinforced Plastic) security cabins are lightweight, durable, and weather-resistant structures designed for versatile use in both indoor and outdoor environments. Engineered for strength and portability, these cabins offer a secure, insulated, and comfortable workspace for applications such as guardhouses, toll booths, and ticket counters.

The cabins are constructed with premium-grade FRP panels, which are UV-resistant, fire-retardant, and built to withstand harsh climatic conditions. The interior is insulated for thermal comfort, featuring anti-skid flooring, pre-installed electrical fittings, and ample ventilation for a safe and efficient workspace.

Specifications :

Material: Durable, weatherproof Fiber Reinforced Plastic (FRP).

Sizes: Standard (4x4 ft, 6x4 ft, 6x6 ft) or customizable.

Features: Insulated walls, anti-skid flooring, pre-wired electrical fittings, sliding windows, secure locking doors, ventilation provisions.

Weather Resistance: UV-proof, fire-retardant, and suitable for extreme climates.

Applications: Guardhouses, toll booths, ticket counters, and outdoor shelters.

Customization: Branding, partitions, solar panels, enhanced insulation available.

Warranty: 5 years.
