

Labycare-Double Canister Circle Absorber (SKSS-AP171)

Double Canister Circle Absorber Manufacturer By LABYCARE

Description :

Double Canister Circle Absorber use in surgical and medical applications in Anesthesia

These absorbers allows convenient disposal support and comes with superior mechanized functioning support for smooth working action.

Double Canister Circle Absorber includes support of carbon dioxide absorber canister, breathing bag, unidirectional inspiratory and expiratory valves which helps in fresh gas supply and pressure-relief valve

The corrugated hose support is provided for connecting absorber to patient.

It supports smooth inspiration and expiration process with economical anesthetic consumption

It allows warming and humidification of inspired gases.

We are Manufacturer, Exporters and Suppliers of Double Canister Circle Absorber at wholesale competitive prices from India.
