Labycare-pelvic binder (SKSS-RP418)

pelvic binder Manufactruer by LABYCARE

Description :

Pelvic Binder is used during pelvic fracture, Laparotomy, angiography during critical conditions or truma cases.

Pelvic Binder binds the pelvic region and helps to reduce pain & movement during transfers by providing temporary stabilization.

Pelvic Binder is ideal to splint the bony pelvis which reduces hemorrhage from bone ends & venous disruption. It reduces pain & movement during transfers.

Pelvic Binder provides stabilization of pelvis until definitive stabilization can be achieved.

We are Exporters and Suppliers of Pelvic Binder at wholesale competitive prices from India.
